

Your Role

As our IT System Administrator, you'll play a key role in ensuring the reliability, security, and performance of our IT infrastructure. Your responsibilities include:

- Collaborating with the ICT Coordinator on infrastructure improvements and upgrades
- Managing and maintaining servers and networks
- Supporting first and second line colleagues with escalated technical issues
- Installing, configuring, and updating hardware and software
- Monitoring system performance and implementing robust security measures, including firewalls
- Documenting configurations, procedures, and incident resolutions
- Assisting during internal audits and system migrations
- Ensuring compliance with IT policies and data protection standards

Your Profile

- Bachelor's degree in IT, System Administration, or equivalent experience
- Minimum of 3 years in a similar role
- Strong knowledge of Windows Server, Active Directory, Microsoft 365, and network protocols
- Familiarity with firewalls, endpoint protection, and backup solutions
- Linux knowledge is a plus
- Structured, proactive, and solution-oriented mindset
- Fluent in Dutch and English (French is a plus)
- A strong focus on security in everything you do

What We Offer

- A competitive salary package, including:
 - Group & hospitalization insurance
 - Meal vouchers
 - Internet allowance
 - The opportunity to join our Cafeteria Plan (e.g. Bike lease)
 - Flexible working hours & 30 holidays

- Possibility for occasional telework
- Extensive learning and development opportunities
- An inspiring and high-tech work environment
